Compound Displacement Wave Form Hull Design For Green Vessels Patented

Innovation Law Group, Ltd. of Sequim is pleased to announce that the US Patent Office issued US Patent 7,974,683 to local yacht designer, Guy M. Hupy of Guy Hupy Design, Port Townsend. The patent is directed to a compound hull for electric-powered, cruiser-type vessels having a unique hard chine displacement wave form hull that recycles wave energy to minimize drag and results in lowered power requirements for long-period cruising at displacement hull speeds.

ILG assisted Mr. Hupy in the preparation, filing and prosecution of the US patent application. ILG is the premier patent and trademark firm on the Olympic Peninsula, offering over 45 years experience in all phases of Intellectual Property and related business counseling from its Sequim office. ILG can be reached at 360-681-7305 or www.InnovationLaw.com.
