Isothermal Machining Systems

Local company Isothermal Machining Systems announces completion of the filing of foreign patents in: Australia, Brazil, Canada, China, India, Japan, Korea, Malaysia, Russia, Singapore, Taiwan, and the European Union which includes 35 countries.

Robert Jensen, president, stated “Filing for Patent Protection in Foreign Countries is an essential step in the company obtaining worldwide protection for its innovative fixturing system for high speed, precision machining of aerospace components in a near vibration-free, constant temperature process. The IMS IsoDamp™ machining system is the next generation of high yield machining of complex parts.”

ILG assisted MTC in the preparation, filing and prosecution of the US and foreign patent applications. ILG is the premier patent and trademark firm on the Olympic Peninsula, offering over 40 years experience in all phases of Intellectual Property and related business counseling from its Sequim office. ILG can be reached at 360-681-7305 or www.InnovationLaw.com.
