Local Company Receives US Patent on Isothermal Machining System

Innovation Law Group, Ltd. of Sequim is pleased to announce that the US Patent Office is issuing US Patent 7,568,275 to local company, Isothermal Machining Systems. The patent is to an innovative fixturing system for high speed, precision machining of aerospace components in a near vibration-free, constant temperature process. The IMS IsoDamp™ machining system is the next generation of high yield machining of complex parts.

ILG assisted Robert Jensen, the company's president, in the preparation, filing and prosecution of the patent application. ILG is the premier patent and trademark firm on the Olympic Peninsula, offering over 40 years experience in all phases of Intellectual Property and related business counseling from its Sequim office. ILG can be reached at 360-681-7305 or www.InnovationLaw.com.
